Endocrinology vol 3, 1919

# INDEX

**Abel, J. J.** (Kubota): Histamine in hypophysis cerebri.....529
**Abelin, J.:** Effect of amines on metabolism in thyroidless dogs 430
— Endocrine organs, bladder activity .....370
Abderhalden reactions in certain dementias ..... 85
— — with hypophysis .....526
**Abl, R.:** Adrenalin in malaria...350
**Ablahadian, E.** (Rogers and Rahe): Gastric secretion and organ extracts .....231
Abortion, relation of corpus luteum to .....395
Abortions, pituitrin in curettments for .....531
**Abrahamson, I.** (Climenko): Pituitary diseases ..... 69
Abscess of pineal.....444
Abscesses in ovaries and corpus luteum .....541
**Abt, I. A.:** Diabetes in infancy and childhood .....273
Acetone bodies, formation of 486, 487
Acetonuria and lactation.....215
Achondroplasia with hypothyroidism .....120
Acid-neutralizing elements, exhaustion of, producing acidosis in diabetes .....547
Acid reaction of muscle after fatigue .....151
Acidosis and pancreatic diabetes.355
— control of ..... 62
— danger from, in starvation treatment of diabetics....546
— diabetic .....547
— in diabetes.....53, 554
— — — — if fat in diet.....545
— — — — mellitus .....542
— of diabetes mellitus, clinical picture .....543
— relation of, to acute diabetes.541
— studies of .....363
— terminal symptoms of progressive .....547
— two types .....547
Acromegalic gigantism .....202
Acromegaly .....523
— and cessation of menstruation 8
— and diabetes death in.....487
— — — — frequent combination of 486
— cases of congenital.....206
— — of, in 5 brothers, 1 sister..209
— due to pituitary tumor..... 8
— following pregnancy .....533
Acromegaly, illustrating chief features of .....376
— in child, case of.....205
— lactation in man having.....210
— mental symptoms in.....528
— — long standing with subjective symptoms.....205
— of larynx ..... 68
— pathogenesis and etiology of.380
— report of case of fatal.....520
— with adiposogenitalis .....532
— — diabetes and change of hair color .....175
— with mediastinal tumor..... 68
— without hypophyseal tumor...175
**Adair, F. L.:** Pituitary extract and labor .....401
**Addis, T.** (Barnett): Pituitrin and adrenalin, kidney..... 88
— (Kerr): Neurocirculatory asthenia and thyroid enlargement .....251
Addison's disease .....345, 513
— — acute ..... 39
— — adrenal insufficiency and..501
— — and scleroderma, cause of 436
— — and tuberculosis .....179
— — blood sugar in treatment of 497
— — case of .....180
— — — — — in girl of 13.....179
— — — — — traumatic .....503
— — cause of .....137
— — caused by pneumococci....495
— — description of case.....501
— — following railway accident.503
— — hypophysis as regulator of diuresis in .....522
— — in child .....495
— — in girl of 10.....178
— — leucocytic formula in.....179
— — metabolism in .....513
— — muscular activity in.....145
— — no symptoms of diabetes insipidus in .....522
— — of syphilitic origin.....496
— — pigmentation in, cause of.534
— — report of case.....347, 495
— — syndrome of Basedow's disease with .....232
— — treatment of ..... 39
— — tubercular origin of.....496
Adenoma of ovary..... 86
Adiposis dolorosa .....175
Adiposity .....530
— a symptom of pineal tumor..445
— case proving to be diabetic...488
— caused by hypophysis.....522

Adiposity in children.....370
— three leading views on production of.....445
— with basal brain tumor.....526
Adiposogenital dystrophy...377, 403
———— case of.....212
———— caused by congenital syphilis .....526
———— hypophyseal type..... 71
———— in Brazil.....208
—— teratoma with.....525
—— with basal brain tumor...526
—— sarcoma of hypophysis with.525
—— with glioma of hypophysis.525
———— myopathy .....526
Adiposogenitalis .....532
— case of.....530
— in man of 26, case of.....527
**Adler, L.:** Influence thymus on thyroid and growth.....598
Adrenal .....37-39, 41, 175-182, 343-347, 495-504
— action of drugs on adrenin output of.....501
— adrenin content of.....343
—— granules in.....496
— advantages to be derived from study of.....254
— and muscular activity.....145
—— nervous system..... 39
—— pigmentation of melanophores of horned toad...182
—— shell shock.....178
— atrophy of, in case of pluriglandular insufficiency.....562
— blood flow through.....137
— body, lesion of, in paludism..504
— cortex .....38, 257
—— absence of, producing Addison's disease .....146
—— function of.....146, 259, 346
—— importance of.....496
— crisis .....177
—— report of case..... 37
— deficiency ..... 37
— development of, in cat.....180
— dyspepsia .....343
— effect of thyroid hormone on.572
— exhaustion by emotional disturbance ..... 38
— extirpation and blood pressure 38
— extract, effect of.....260
———— feeding .....213
— extract in treatment of Addison's disease.....497
— extracts in treatment of inflammations of respiratory tract .....503
—— in tuberculosis.....503
— focal necrosis of.....177
— form of malaria.....177
— function of.....41, 182
—— two great conceptions of..257
— ganglioneuroma .....498
— glands ..... 37
—— biochemistry of.....533
—— and chloroform inhalation.181
Adrenal glands, chromaffine portion (medulla).....258
—— desiccated, in Addison's disease .....496
—— functional activity of.....177
—— functions of.....253
—— influenza and.....347
—— interrenal portion (cortex).258
—— in tuberculosis.....177
—— primary tumor of.....345
—— relations to retinal pigment .....346
—— relative volumes of cortex and medulla.....344
—— tumor .....345, 495
———— in precocious puberty..463
—— with toxic infection.....178
— hemorrhage, bilateral.....497
—— in infants.....498
— Henle's reaction in.....189
— influence on kidneys..... 49
— influenced by psychic factors.341
— in paludism.....347
— insufficiency .....39, 176, 177
—— and Addison's disease.....501
—— brown pigmentation in tetany due to.....561
—— cause of Addison's disease.137
—— caused by altitude flying..496
—— following influenza.....503
—— in fever and malaria.....178
—— in soldiers.....178
—— Sergent's white line in.... 41
—— with typhoid.....503
— intoxication ..... 37
— liberation of epinephrin from .....40, 41
— medulla .....38, 257
—— function of.....258
—— functional activity of.....498
———— in tuberculosis...346
—— relation to blood pressure. 38
— non-tuberculous degeneration of .....501
— normal in case of myasthenia gravis .....584
— organotherapy .....345
— post-natal development of....344
— post-operative death and tuberculosis of.....181
— presence of adrenin in human fetal ..... 41
— relation to hyperthermia.....424
— relative importance of cortex and medulla..... 38
— secretion and vasomotor function of splanchnic.....180
— secretory innervation of.....181
— some notes on.....514
— substances .....259
— therapy in secondary sex characters ..... 92
— thyroid and, functional relation between..... 98
— tuberculosis .....37, 495
— tumor and sexual precocity..563

Adrenal-typhoid syndrome...40, 503
— veins, death produced by tying of .....137
— white line.....179
Adrenin .....42-51, 179, 183-189, 347-350, 504-508, 514
— action of drugs on output of.501
— — — on kidney.....321
— — — — secretion of sweat...183
— — on flow of pancreatic secretion ..... 47
— — — heart of frog and toad.. 42
— — — muscle fatigue.....183
— — — ureter .....43, 179
— activity of different sorts of.. 48
— administration of.....347
— — — by intraspinal injections.187
— an essential factor in production of hyperglucemia.....188
— and bladder activity.....370
— — colloidal gold injections...348
— — — quinine injections.....348
— — physostigmin ..... 49
— — lymph gland extract..... 80
— — pituitrin, antagonism..... 44
— anesthesia in tonsilectomy... 42
— blood pressure changes caused by ..... 50
— causing dilatation of kidney .....327, 328
— — — — pupil .....537
— chromaffine tissue an indicator of .....502
— circulatory failure due to....508
— combined with polypeptide, influence of.....525
— constriction ..... 47
— content of adrenals after chloroform inhalation.....181
— — — suprarenals .....343
— distribution in blood..... 50
— effect of.....179
— — — painting pancreas with.557
— — — repeated injections.....182
— — — stimulation of sensory nerves on rate of liberation of.....497
— — on excised vagina..... 50
— — — surviving blood vessels. 48
— — — tonus waves in auricles of terrapin.....50, 51
— effect on vasomotor reflexes..428
— essential for prolonged muscular efforts.....147
— from adrenals not indispensable .....505
— granules in adrenals.....496
— glycosuria and diet.....349
— hyperglycemia .....506
— in asthma.....185
— — auriculo-ventricular dissociation .....506
— dilatation of pupil following gangliectomy ..... 43
— — fetal adrenals.....533
— influence in skeletal muscle contraction ..... 49
Adrenin influence anaesthesia, hemorrhage, etc., on pressor effect of .....188
— — of pituitrin and on pupil of rabbits ..... 88
— — — thyroid preparations on action of.....595
— in gastric disturbance.....343
— — — musculature .....347
— inhibiting gastric secretion...232
— inhibitory action of, on kidneys ..... 42
— injections, arterial pressure following .....508
— — effect on blood.....506
— injections in Addison's disease.496
— in malaria.....350
— — muscular activity.....145
— — prevention of anaphylaxoid of salvarsan.....348
— — purpura .....186
— in superficial hemorrhage..45, 46
— — tonsillectomy .....568
— intravenous injection of, preceded by one of thyroid, effect of.....595
— in treatment of asthma..... 42
— — — of case of adiposogenitalis .....527
— in typhoid.....503
— intraspinal injection of..... 48
— liberation from adrenals after section of nerves.....186
— necessity of, in organism.....186
— output in shock.....189
— plus arsphenamin and neoarsphenamin .....184
— precipitation of epileptic attacks .....349
— pulmonary edema.....505
— — — in rabbit.....184
— rate of liberation influenced by asphyxia .....187
— reducing properties of.....534
— relaxation of sphincter muscle of iris..... 49
— spontaneously liberated, action on heart.....497
— suppression of colloidal gold reaction .....348
— synthetic .....186
— test in glycemia.....186
— treatment of influenza...350, 503
— — — lung diseases with.....506
— — — menorrhagia .....569
— vasodilator mechanism, location of..... 44
— with procain in dental operations ..... 49
— with typhoid inoculation.....514
Adrenin-novocain solution used as anesthesia producing gangrene ..... 51
Adrenin-pituitrin treatment...44-46
— — — of asthma..... 45
Adrenochrom in treatment of inflammations of respiratory tract .....503

Adrenochrom, use of, in tuberculosis ..... 503
Adrenopathic hyperchlorhydrias. 343
**Agata, G. D.:** Transplantation of thyroid glands..... 236
**Agnoletti, G.:** Castration and tissue respiration..... 65
**Aikins, W. H. B.:** Exophthalmic goitre, radium treatment..... 576
— Radium in exophthalmic goitre ..... 103
— Radium therapy in hyperthyroidism ..... 428
— Radium treatment of exophthalmic goitre..... 250
**Alamartine, H.:** Lesions of thyroid ..... 433
**Albeck:** Thyroid hypertrophy in pregnancy ..... 582
Albuminuria during pregnancy ..... 264, 271
Alcohol, effect on liquor hypophysis ..... 78
— — — pituitary extract..... 78
**Alexander, A.:** Myxedema caused by military service..... 584
**Alexander, G.:** Diagnosis temporal lobe cerebral abscess and hypophysis tumor..... 525
Alimentary glycosuria in case of adiposity ..... 526
**Allen, B. M.:** Pituitary and thyroid glands and metamorphosis ..... 424
— Studies upon endocrine glands of tadpoles..... 242
— Thyroid and pituitary extirpation in tadpoles..... 243
**Allen, E.:** Degeneration in testis due to deficient diet..... 227
**Allen, E. M.:** Pregnancy, pituitrin 88
**Allen, F. M.:** Diabetic question..550
— Diabetic question, clinical medicine ..... 550
— Diabetic treatment..... 366
— Role of fat in diabetes..365, 554
— (DuBois): Diabetes metabolism ..... 58
**Allen, M. B.:** Myxedema..... 408
Allen-Joslin treatment of diabetes mellitus ..... 361
Allen treatment for control of acidosis in diabetes..... 556
— — for diabetes, report of cases. 552
— — of acidosis..... 364
— — — diabetes ..... 61, 510, 541, 546, 549, 552, 555, 556, 557
— — — diabetes mellitus...545, 552
— — — — — modifications in..556
— — in diabetic gangrene..... 553
**Allende Ignacio:** Male climacteric. 565
Allen's exercise treatment of diabetes ..... 557
**Aloi, V.:** Action of chloroform..355
— Adrenal glands and chloroform inhalation..... 181
"Alpha iodin" now known as thyroxin ..... 156
Alopecia, of endocrine origin....500
Altitude sickness of aviators, adrenals in..... 496
**Alves Maurico, M.:** Adiposo-genital dystrophy..... 403
Ameba and endemic goitre..... 575
Amenorrhea due to dysfunction of hypophysis..... 11
— in case of pluriglandular insufficiency ..... 562
— relation of corpus luteum to. 395
**Amesse, J. W.:** Diet in diseases of thyroid..... 412
**Amoss, H. L.** (Flexner and Eberson): Choroid plexus and experimental poliomyelitis..... 351
Amylase an internal secretion of pancreas ..... 557
Anaesthesia, influence on pressor effect of epinephrin..... 188
— in tonsillectomy, adrenalin... 42
Anatomy of parathyroids..... 222
— — thyroid gland..... 108
**Anders, J.:** Goitre..... 372
**de Andrade, A. D.:** Infantilism from ankylostomiasis..... 214
Animal extracts, early therapeutic use of..... 511
— — uncertainty of action of... 2
Ankylostomiasis, infantilism from. 214
Annular dystocia and hypophyseal extract..... 73
Antibodies, influence of thyroid gland on formation of..... 318
Anti-diabetic substance..... 60
Antineuritic vitamine, influence on pancreatic secretion..... 563
Anti-thyroid treatment..... 571
Aorta in exophthalmic goitre....235
**Apert, E.:** Sex..... 92
— Sex determination..... 403
Apinealism and mentally defective children..... 442
**Arey, L. B.:** Suprarenal gland and retinal pigment..... 346
**Arnasson, J. S.** (Vincent): Thyroid and parathyroid..... 111
**Arntzenias, A. K. W.:** Parathyroids and calcium metabolism in tetany..... 560
**Arrillaga, F. C.:** Adrenin in auriculo-ventricular dissociation. 506
**Arrowsmith, H.:** Diabetic ulceration ..... 55
— Diabetic ulceration of pharynx and larynx ..... 358
Arsphenamin and neoarsphenamin plus adrenin..... 184
Arterial pressure following adrenin injections..... 508
**Arthus, M.:** Secretin..... 91
— Thyroid and cardio-inhibitory apparatus ..... 101
**Artom, C.** (Lombroso): Glucose metabolism ..... 190
**Aschenheim, E.:** Vegetative nervous system in tetany..... 566

**Asher, L.**: Thymus influence on body growth.....406
— Thyroid, spleen.....113
Asphyxia, effect on adrenal secretion .....183
— influence of, on rate of liberation of adrenin from adrenals .....187
**Assinder, E. W.** (Evans): Pituitary infantilism.....211
Association for Study of Internal Secretions, purpose of.....253
Asthenia .....530, 562
— as result of adrenal deficiency 37
— neurocirculatory, study of fifty cases .....243
— symptoms of neurocirculatory in recruits.....251
Asthma .....562
— and vegetative nervous system.350
— adrenin and pituitrin in..... 45
— — in treatment of.....42, 185
— pathology and treatment of.. 45
— relation of endocrine glands to .....367
— treatment by pituitary extract.383
**Athanasiu, J.** (Marinesco): Myasthenia .....227
Athyrosis, fetal and maternal...262
Atrophic myotonia and cataract.571
**Atwater, R. M.**: Scleroderma and sclerodactyly .....428
**Atwell, W. J.**: Development of hypophysis cerebri of rabbit.. 69
— Hypophysis in anura..... 70
— Pigmentation changes following hypophysectomy..... 76
— (Sitler): Pars tuberalis in hypophysis ..... 78
**Aub, J. C.** (Dennis): Blood sugar in hyperthyroidism.....411
— (Gephart, DuBois and Lusk): Clinical calorimetry.....357
— (Means): Exophthalmic goitre ..... 99
**Auer, J.** (Gates): Adrenin pulmonary edema.....184, 505
— (Kleiner): Coagulation of pancreas ..... 60
— — Hyperglycemia in experimental pancreas deficiency .....551
— (Meltzer): Adrenalin constriction ..... 47
— — Adrenin intraspinal injections .....187
— — Blood pressure, adrenalin. 48
**Ausch, D.**: Acromegaly with diabetes .....175
**Ausmann, H.**: Heart in myxedema .....430
**Austin, J. H.** (Pepper): Splenectomy ..... 93
— (Stengel and Tonus): Treatment of diabetes mellitus, Allen's method.....556
**Austmann, K. J.** (Halliday and Vincent): Adrenals and blood pressure ..... 38
Autointoxication due to dysfunction of endocrine glands.....470
Autonomic nervous system.350, 374
— — — irritation of, cause of increased metabolism..594
Aviators, altitude flying due to adrenal insufficiency.....496

**Bab, H.**: Hypophysis and specific gravity of urine.....521
Babies, pineal feeding in.....442
**Badertscher, J. A.**: Ultimobranchial bodies and thyroid.....119
**Bacigalupo, A. R.**: Surgical treatment of exophthalmic goitre..587
**Bacigalupo, G.** (Ceballos): Goitre and boiling water.....431
**Bailey, H.** (Murlin): Sex glands and metabolism.....373
**Bailey, C. V.**: Alimentary hyperglycemia and glycosuria...59, 198
— Renal diabetes.....193
**Bailey, P.**: Endocrine glands...199
**Bainbridge, W. S.**: Clinical aspects of internal secretions...387
**Baldwin, J. F.**: Allen treatment in diabetic gangrene.....553
**Balfour, D. C.**: Cancer of thyroid gland .....106
**Bandler, S. W.**: "Higher up" theory of sterility in women.....201
— Internal secretions in obstetrics and gynecology.....386
— Pituitary extract..... 87
— Problems in obstetrics.....381
— Therapeutic suggestion concerning endocrines.....199
**Banta, A. M.**: Sex intergrade....190
— Sex intergrades in Cladocera.226
Banti's disease, a critique..... 92
**Barach, J. H.**: Diabetes insipidus.359
— Diabetes mellitus and syphilis.544
**Barker, L. F.**: Exophthalmic goitre .....234
— Functions of suprarenal glands .....253
— (Mosenthal): Diabetes insipidus, pituitary extract.....382
— (Richardson): Cardiac arrhythmias .....233
**Barnett, G. D.** (Addis): Pituitrin and adrenalin, kidney..... 88
**Barney, E. L.**: Action of tethelin.376
**Barnhill, J. F.**: Anatomy and surgery of thyroid.....108
Basal metabolism, effect of thyroidine on .....593
— — estimation, toxic goitre....573
— — test for hyerthyroidism...588
— meningitis, polyuria occurring with .....525
Basedow patients and throat infections .....580
Basedow's disease and emotional states .....245

Basedow's disease, emotional origin .....232
— — hypophyseal therapy in....378
Basedowized goitre, X-ray treatment .....593
Basedowified goitre.....473
"Basedowiform heart".....335
Basedowism duration and treatment .....337
**Bate, R. A.:** Endocrinology and opotherapy of shock.....202
**Battistini, F.:** Acromegalic gigantism .....202
**Bauer, E.:** Function of adrenals 41
**Bauer, J.:** Dwarfism.....511
— Myasthenia gravis with Graves' disease .....584
— Nanosomia infantilis pituitaria .....528
— (Spiegel): Bilirubin in blood.512
Bauer's type of thyreogenic heart.591
**Baumgarten, A.:** Hermaphroditism .....519
**Bay, R. P.:** Surgical treatment of goitre.....115
**Bayer, G.:** Blood liposes and metabolism .....394
**Baylis, W. M.:** Chemical correlation in growth of plants.....204
**Beard, A. H.** (Rowntree): Salt metabolism in diabetes.....363
**Beck, H. G.:** Dystrophy adiposogenitalis ..... 71
**Bedford, E. A.** (Jackson): Epinephric content of blood..... 40
**Beeson, B. B.:** Arsphenamin and neoarsphenamin .....184
**Beilby, G. E.:** Acute thyroiditis.409
**Bell, H. H.:** Hyperplasia of pineal body ..... 87
**Bell, R.:** New phase of organotherapy ..... 82
**Bell, N. B.:** Ovarian grafting...393
**Bellaire, R. F.:** X-ray therapy...232
**Bellin, J. J.:** Adenoma of thyroid.107
**Benard, R.:** Sporadic hemophilia with myxedema, thyroid therapy .....570

**Benestad, G.:** Drugs to aid delivery .....207
**Benhamon:** Paludism.....504
**Benjamin, A. E.:** Thyroid disease.102
**Berg, C.:** Exophthalmic goitre...576
**Bergé, A.** (Shulman): Rhythm of hypophyseal polyuria.....210
**de Bergevin E.** (Sergent): Endemic goitre transmitted by insect .....106
**Bergh, C.:** Exophthalmic goitre.414
**Bergheim, O.** (Halverson and Hawk): Thyroid and thymus treatment in goitre.....119
**Berkman, D. M.:** Preoperative consideration of exophthalmic goitre .....248
**Berlin, E.:** Effect of removal of spleen .....226
**Bernhard, A.** (Rohdenburg and Krehbiel): Sugar tolerance in cancer .....386
**Bernstein, S.** (Falta): Respiratory exchange, blood sugar regulation .....193
**Beuzard** (Loeper and Wagner): Adrenal dyspepsia.....343
**Bevan, A. D.:** Acute necrosis of thyroid gland.....236
**Biberfeld, J.:** Adrenin glycosuria and diet.....349
Bile flow, stimulation of.....563
Bilirubin in blood, effect of animal extracts on.....512
**Bizot, A. R.:** Ovarian salvation vs. ovarian destruction.....394
**Bierry, H.:** Glycosuria following ablation of pancreas.....220
**Bigney, A. J.:** Adrenin, pigment migration ..... 48
Bile, influence of internal secretion upon formation of.....214
Bladder activity, influence of endocrine organs on.....370
**Blanc, J.:** Neurasthenia and opotherapy .....426
**Blatz, W. E.** (Hartman): Death by tying adrenal veins.....137
Blood, acetone bodies of, in diabetes .....194
— — substances of, in diabetes. 53
— adrenalin distribution in..... 50
Blood calcium content in normal children and in tetany.....566
— change in corpuscle content of.563
— — in animals following hypophysis removal.....384
— — in Graves' disease.....571
— chemistry, value of, to clinician 55
— cholesterin index, value in urinary disease.....497
— coagulability of, in exophthalmic goitre.....590
— coagulation and relation of thyroid and spleen to bone marrow .....113
— — effect of organ extracts on .....515, 244
— content of cholesterin in thyroid insufficiency.....425
— defective development of....386
— diastatic activity of..53, 219, 553
— effect of adrenin injections on.506
— epinephric content of, in low blood pressure..... 40
— findings in exophthalmic goitre .....590
— flow through adrenals.....137
— glycogen content of, in experimental diabetes.....549
— liberation of epinephrin into.. 40
— lipoids in diabetic.....193
— liposes and metabolism.....394
— of animals deprived of hypophysis ..... 79

Blood picture in Addison's disease .....179
——— cretinism .....100
— plasma in experimental tetany.223
— pressure, action of hypophyseal extract on.....523, 524
—— changes caused by adrenin 50
—— during and following menopause .....375
—— curve and stimulation of splanchnic nerve end... 44
——— following adrenalin injection ..... 48
—— elevation of, by intraspinal injections of adrenin...187
—— in dysthyroidism.....246
—— low .....562
——— epinephric content of blood in..... 40
—— relation of adrenal medulla to ..... 38
— spitting of, vicarious menstruation .....463
—— study of low..... 42
— red and white corpuscles in, during digestion..... 91
— sugar and Addison's disease..497
——— residual carbon in diabetes .....191
—— content .....528
—— distribution of, in diabetes.191
—— content, influence of secretin 91
——— in hyperthyroidism..... 56
—— effect of exercise on, in depancreatized dogs..... 61
—— in diabetes mellitus..356, 543
——— human diabetes.....542
——— hyperthyroidism .....411
——— nephritis .....355
——— tropics .....355
—— influence of injection of Witte's peptone on.....351
—— regulation, respiratory exchange and.....193
— supply of areas of Langerhans.220
Bloor's method of determining lipoid value of blood.....543
**Blum, H. N.:** Hypophyseal disease .....381
**Blumenfield, E.** (Hirsch): Internal secretions and metabolism. 79
**Blumer, G.:** Diabetes mellitus...541
Body weight, effect of thymus extirpation on.....230
—— influence of pineal feeding.441
**Boehme, Jr., G. F.:** War neuroses in women.....120
